SMALL-POX AT MADISON.

Quarantine Raised by the State Board of

Health.

Madison, Ill., April 28 .- The small-pox e in the town of Madison has dwindled down to three or four cases of a mild type of variola. At a meeting of the State Board of Health held at Madison last evening, the cases not quarantined at Jerry Coffey's boarding house were examined and pro-nounced mild forms of variola. Quarantine regulations instituted by the Venice orities were withdrawn and free com ication between the towns of Venice,

munication between the towns of Venice, Newport and Madison was restored.

Under the quarantine regulations supplies were cut off and had the restrictions not been promptly removed great suffering would have resulted to the citizens.

It is claimed that the quarantining of Madison and Newport by the Venice authorities was premature and ill-advised. The owners of horses at the race tracks were denied passage to the Fair Grounds track for themselves and stock, and but for the removal of the quarantine would have sustained large loss. Mayor Youree did all in his power to prevent the quarantining of his city, but health commissioner Grayson consulted his own additional matter, by which act great inconvenience and loss were sustained by the pusiess men of all three towns.

Tellow flags are displayed from the windows of the Coffey boarding-house, where unifer the race track people carded and were subjected to exposure to be various cases, and the local authorities fill see that the public safety will in no pass as endangered.

There was a special meeting of the Board of Health at noon to-day at which Mayor Walbridge presided and all the members were present except Dr. Forster and Mr. Caruth. The object of the meeting was to consider the small-pox question with a view to taking some action scales the race tracks

Before passing any resolution relative to this recommendation it was deemed advisable to consult with the City Counselor as to the proper steps to be taken.

He was accordingly sent for, and after reading over the ordinance provisions on the subject, informed the board that in his opinion the South Side Park could not be questioned yet, because there was no postive proof that it was an infected district. If it was shown, however, that the managers were receiving horses or persons connected with racing stables from Madison, then the Health Commissioner could order the place closed against the public. A resolution was accordingly introduced and adopted which provided that the managers, owners and lessees of couth Side Park should be notified that if they permitted or allowed any horse, baggage or persons from Madison, Ill., to enter or become quartered upon the premises of the park that the place would be considered an infected district and the gates at once closed against the public.

Acopy of this resolution was at once ordered to be served on the South Side authorities.

The Health Commissioner stated that he was informed that there were a number of horses and stablemen from Madison, who had been refused admission at the Fair Grounds, and he was authorized to take the proper steps to see that none of these were admitted to the South Side Park.

Mr. Al Spink, Secretary of the South Side Association, when told of the resolution, said that they would co-operate with the health authorities if a sufficient police force was given them to keep these people out. It was to their interest, of course, not to have them on the grounds, and everything would be done to prevent them coming. There was another suspected case at the Fair Grounds this morning, which was at once isolated.

The negro, Beckley, who was taken from the grounds yesterday afternoon, was sent to quarantine this morning, he having been pronounced infected with the disease.

MEETING OF CONGRESS.

Mr. Crain's Bill Changing the Date o Convening.

WASHINGTON, D. Instead of having the new Congress meet thir-teen month's after its election, as under the present law, it would meet five months after, in the succeeding spring. According to Mr. Crain this would bring the new Congress to gether fresh from the people with election pledges undimmed and election ardor uncooled.

The Governor and company of militia with a battery of gatling guns was put aboard aspecial train at 11:45 a. m. and pulled out for Mount Sterling. Two Gatling guns were on the rear car. Six cars contained soldiers. The other was a baggage car.

It was a surprise, says a telegram from Mt. Sterling, to the Galvin army at 1:30 this morning when Detective John Mahoney and his men asked them to vacate the train. When he presented his commission showing that he represented the Governor, who had given him special power in accordance with law, the Coxeyites laughed at him. They refused to hear the commission read. They met all demands in the name of the State with hoots and jeers.

Citizens held a meeting last night to consider the situation. It was reported that Gen. The Mayor, Chief of Folice and the Sheriff will meet the invaders on their arrival and finally tell them they shall get no aid nor comfort here, and that the first infraction of the law will be severely punished. The probability is that if the army attempts to take possession of Agricultural Park or any other State property it will be confronted by the military and local soldiers, who are thinking of going into camp for a few days.

The army already stranded here has gone to Sutter, where it will be free from conflict from Barker's army, should the latter attempt to locate at Agricultural Park. Col. Proceedings to Compel the Great Northern to Operate Its Lines.

PETITION FILED IN THE MONTANA BU-

PREME COURT AT HELENA.

Well Laid Plan of the Road to Break the Strike Foiled by a Clerk at Seattle-The Situation at St. Paul One of Quiet Watchfulness.

HELENA, Mont., April 28.—Proceedings were begun in the Supreme Court to-day on behalf of the Attorney-General to compel the Great Northern to operate its lines within Montana. A petition was filed which sets forth the organization of the road and recites that on April 13, in violation of ils duty to the people of this State and in disregard of its obligations assumed in the acceptance of its franchise, it wholly ceased to operate any of its lines within the State, and still refuses t do so or to carry any freight or passenger or to accept either for transportation and has wholly abandoned operations; that it is fully able to operate and run its trains; that it has abundant means to do so and that there are at all points along its line within the State a sufficient number of competent and skilled men be engaged to do so at reasonable wages and at less wages than are paid to similar employes upon any other line in Montana; that the counties in the northern part of the State are almost entirely dependent upon the Great Northern for transportation facilities and that the neglect of the road to run trains has already resulted in great loss to inhabitants.

The attorney-General asks the Court for an order upon the company, commanding it to appear and show cause why a writ should not be issued compelling the company to operate its road as it was operated previous to April 18.

These proceedings will be followed by an application to have the charter of the road within the State forfeited on account of the failure to operate the line. The Court has taken the application under consideration. able wages and at less wages than

the line, but it was folled by a cierk in the ranks of the strikers. The indipient break arose from appeals to the loyalty of engineers and trainmen to their brotherhoods which came from the East. Being promised recognition of brotherhood men by the company, their enthusiasm for the strike began to cool, and they announced themselves as ready to go to work. At a conference with the local officials at which the engineers, conductors and brakemen were promised concessions it they would go to work, the engineers and trainmen promised to accept, provided that the fremen, who were not present at the meeting, would assent. It was arranged that the train should go out at the regular hour this morning.

The firemen, however, refused at a secret meeting to accept the conditions, and the engineers refused togo out with scab firemen. As the firemen were a unit on this question this disposed of the forces of the strikers.

All operators on the line have received.

Mr. Hill said he has more than enough men to go to work.

The engines for branch line trains were standing in the Union Depot yards to-day waiting to be attached as soon as the trains had been backed down. They had been brought out of the round-house without any difficulty and were manned by old engineers and firemen in the Great Northern service. The cars, however, were not there and their absence was explained by the fact that nobody would handle the switch engines to move them from the yards.

In the yards there was no appearance of unusual excitement. A number of the regular switchmen were there ready to work, but as there were no yard engines ready they had nothing to do. It was impossible to ascertain how long this state of inactivity mignt continue. Mr. Hill, is, however, busily engaged in completing his plans to operate the road.

Hints at Dark Chamber Conferences on the Tariff Bill-The Sugar Interests Receive Special Care-Senator Harris Presses Action on the Pending Measure -Details of the Day's Debate.

WASHINGTON, D. C., April 28.—Senator Hale made a bitter attack on Senator Brice in the Senate to day in regard to the tariff bill and the compromise measure now being made up. The Senator from Maine had two interviews from Brice read by the clerk, one in which Brice denounced the tariff bill as bad, and a second as now ready was working for the change of the sugar schedule, and that the sudden rise in sugar stock was due to the second "dark chamber conference and rumors of changes. Hale old Harris, who had charge of the bill, that if he did not know these things it was best he should, for it would be stuffed down his throat by his masters. Mr. Hale said the tariff bill was now being drawn in the interest of the sugar refiners and that the sugar growers of Louisiana and Nebraska would be ground between the upper and nether stones of this mill. Senator Harris denied the rumor, but said he would be willing to accept any changes of the Democrats could get together and pass bill to wipe out the McKinley law.

DETAILS OF THE DEBATE, Before the reading of the journal to-day Mr. Frye remarked sarcastically that such an important document should not be read (Mr. Harris) and of a quorum. The roll was called and at seven minutes after 11 o'clock a quorum appeared and the reading of the ournal was completed.

The House joint resolution authorising the Secretary of the Treasury to make partial payments on vessels constructed and repartment to the extent of 75 per cent of the value of the work done was passed. Mr. Harris at 10:30 o'clock moved to take

up the tariff bill. Mr. Allen asked permission to consider the calendar, but Mr. Harris stated that the tariff bill was more important than all the blis on the calendar put together, and he therefore felt impelled to insist on his mo-tion. The yeas and mays were demanded and the motion was agreed to by a vote of 81 to 19.

becan Mr. Stewart gave notice that next Monday he would address the Senate on the pending bill.

The fact that many amendments were to be proposed to the tariff bill, making a compromise bill, was again the prominent feature of the early hours of the session and was brought out by Mr. Hale of Maine. He began by speaking briefly of the pending amendment—the change of date for the taking effect of the bill—and said that the Senator from Tennessee who had charge of this bill, affecting the industries of the whole country, proposed now to deelde that on June 30—only sixty-flave days ahead—it should take effect and that every reduction of auty, every change affecting industries should take effect and that every reduction of auty, every change affecting industries should then become a law.

"Now," he went on, "I appeal to the Senator from Tennessee to let this part of the bill—the date when it shall take effect—remain unacted on until we have more day-light, until we can see through and know what is likely to be done. Why, Mr. President, we do not believe that the Senator from Tennessee has the slightest conception of what this bill is likely to be when it passes, if it ever does pass. I do not believe the Senator from Tennessee knows what is going on in corners and holes in the wall to fix up a bill which

Tenpessee knows what is going on in corners and holes in the wail to fix up a bill which will be acceptable to the majority. There is some plan, some scheme afloat, to secure the votes of a majority of Democrats. Six weeks ago the Senato from Onio (Nr. Brice) threw some light on what was going on."

There was a meeting of a part of the Missouri Democratic Association last night at Uhrig's Cave Hall. The notices had been sent out by Assistant Grand Scribe P. B. Fithgibbon, the name of Grand Chief W. C. Marshall being scratched with red ink.

About forty choice spirits and friendly Indians of the depleted Missouri Tribe were present, and as the Grand Scribe with the records of the tribe was not present, an informal council of war was held with Calef John Finn as presiding offices.

The object of the council was stated to be to take steps toward beginning proceedings of impeachment against Grand Chief Marshall. A number of red hot speeches were made, chief among them being one by Roger Harty, who reviewed the history of the tribe from the time of the Revolutionary War. He roundly denounced all traitors to the true cause and scored both Billy Marshall and Billy Marklin, claiming that the latter had shown a too strong tendency to affiliate with a hostils tribe. A committee of five was appointed by the Chair to get togsther the records and property of the tribe and take all necessary steps toward giving Grand Chief harshall a fair and impartial trial at the next meeting.

EAST ST. LOUIS Death of E. W. Jamerson, a Prominent

Contractor—Notes.

E. W. Jamerson, a prominent building contractor, died early this morning at his home, 511 Brighton place. While moving about a new building a short time ago he sustained what was thought to be a slight injury, but it is now supposed that he was hurt internally and that the accident was the primary cause of his death. Mr. Jamerson was an extraordinarily large man physically, being of good height and very fleshy, and it was reported, probably on that account, that he died of apoplety. He was 55 years of age and had a family.

The supply of coal is fast becoming exhausted. The miners claim that the strike can last but a few days longer. The operators in Beech Creek and Clearfield districts say that they will make no attempt to start that mines unless work is resumed in other their mines unless work is resumed in other regions, or until it is learned that orders are being taken and filled in the other districts.

Everything is quiet at the Bennington and Kittaning Point Mines in Blair County, the men showing no disposition to return to work. The Cambria County miners, numbering 6,000 men, are also quietly waiting the result of the strike. Not a immp of coal has been mined. been mined at Galitzin, Frugality, Hastings, Lillis, South Fork, Summer Hill, Portage or Bens Creek and the supply on hand at these mines is almost exhausted. The strikers show no signs of weekening and are hopeful of the ultimate result. In the Huntington district everthing is at a standstill. The East Broadtop and Hunting-

ton and Broadtop miners are out to a man, and say they will remain out until the strike is settled. Reports from the Cumberland mining districts are that the men in the mines in that region are working and that there are no fears of a strike. The Kemble Coal and Iron Co.'s miners at funtingdon were the last to strike in that

district, laying down their picks and quitting the mine yesterday. The general opinion seems to be that the strike will not last through another week. There is already some talk of a compromise, and it is believed that an understanding will

Judge Parson Intimates That He Will Not Entertain the Actions.

THINKS THE CASES SHOULD BE BROUGHT UNDER THE STATE LAW.

A Continuance Granted in Order to Give the City's Attorney Further Time to Fila His Brief-Chief Harrigan Discuspes the Efforts of the Police to Make

Without absolutely passing on the nickel-n the siot cases, Judge Paxson of the Second District Police Court this morning clearly in-dicated his purpose to throw them out for

want of jurisdiction.
Attorney Ashley Clover, for the defense, asked for a decision at once, making he point that the time asked for by the city, represented by John F. McDermott, in which to file a brief, had expired. As for himself, he had not asked to file a brief, and would not do so, the court on his oral leaving his case with the court on his oral argument denying jurisdiction.

Mr. McDermott was not ready with his

brief, but said he could send it in by Monday,

whereupon Judge Paxson said:
"It seems to me that the complaint and proof do not agree. The complaint charges a misdemeanor under the ordinances in opa misdementor under the ordinances in operating a gambling device, while the testimony goes to show the commission of a felony under the statute by reason of the ownership of the proprietors of the places where the machines were kept in the machines themselves. It seems to me that the complaint should have been filed in the State courts, Mr. McDerday or Friday next at the latest. Cases 2 to inclusive, are continued until this day

Mr. Clover made a show of opposition to the further continuance of the cases, on the ground that the prosecution had had the two weeks' time they required, but went away well satisfied, understanding that his case was won as far as the police courts are con-

on in the case is shown by his remark to Mr. Clover on the day of trial, April 14, when he said in open court, addressing the attorney for the defense, "These cases come under the Johnson (State) law, I believe," to which Mr. Clover joyously responded, "Yes, yes, your Honor; they do."

Detectives Scully and Kelly, who made the cases, and Lawyer McDermott left the court-room understanding well that their cases were already lost. Mr. McDermott declared that he would take the cases to Assistant Prosecuting. Attorney Estep; and, if refused, would apply to the Grand-jury.

"We went to Estep after we had filed those complaints," said Detective Scully, "and when we told him we had started the cases in the Police Court he put us off, saying that that was the place for them, and the Court of Criminal Correction had enough to do anyway."

Assistant Oily Attorney Mulvibili was a mute but interested spectator of the farcical proceeding before the Court, and gave the city's special counsel no aid whatever. Being asked whether he would take any further action in case the prosecution should be thrown out of court for want of jurisdiction, he replied that he would ask leave to appeal.

As showing how gamblers' cases run in the Court of Criminal Correction, and as sustaining the theory of the detectives that they have little influence there, Detective Scully brought up the case of Will Morrison, fined 510 and costs for policy playing. His attorney, ex-Judge Anderson, offered to pay costs, but Scully and Kelly declared they could convict, and Mr. Dierkes then gave Morrison the privilege of either pisading guilty or going to trial. He pleaded guilty and was fined 510 and costs; but the detectives, going back to the office of the cierk, found the fine reduced to the costs, which was the original proposition of the defense.

With reference to the point of "owner-ship" raised by Judge Paxson in the fickel in-the-slot cases, Detective Scully declared that that applied only to the case of Fred Kicker of 115 Clark avenue, opposite the

that that applied only to the case of Fred Kicker of 1115 Clark avenue, opposite the Four Courts, Ricker claiming that he owned the machine outright; whereas all the others admitted leasing the machines on a percentage. This would leave them outside the felony clause of the state law against maintaining a

clause of the state law against meintaining a gambling house.

As to what action may be anticipated from Assistant Prosecutor Estep, that gentleman has frequently and freely expressed the opinion that the charge against these people is rightfully a misdemennor, and not a felony; I that it is covered fully by the city ordinances and ander the control of the State courts, and he har fully intimated his purpose not to issue a warrant against them on which they cas have preliminary hearing on a charge of felony.

"These cases were taken out of this court by my brother because, I presume, he did not want to compel me to prosecute them. After they were taken to the Second District Court I offered Mr. Mulvihili any assistance in my power, but he did not call on me for any help. It is my belief that the machines are gambling devices, and I am not sure but that their operators are suilty of something more than a misdemeanor."

Mr. Clover added that he had contemplated addressing a note to Mr. Mulvihili asking the cause of the delay, he had understood that a Mr. McDermott was acting for the city and in Mr. Mulvihili's stead; but he did not know whom McDermott represented. As far as he knew Mr. McDermott had no authority from any city officer to act as prosecutor;

REFERSENTS THE TAGEBLATT.

Mr. McDermott stated to a representative of the Post-Draparon that he had been retained by the St. Louis Tageblatt to push the prosecution of the Cases; that the editor of the Tageblatt Adolph Hepper, was the first man to call the attention of the Chief of Police to this gambling device; that he wrote several personal letters to film, and that Harrington only consented to make the test case after repeated urging.

"The house gets a rake-off of 50 per cent to start with; of the remainder the player has too chances out of six to win," said one saloon-keeper who tried the scheme. "There's money in it for the house, but it's rank robbery—the rankest of all mechanical devices I ever saw. It is not merely manipulated to win, it's set up that way, and it can't do anything else."

Device Described.

DEVICE DESCRIBED.

The essential feature of the device is a coard set up obliquely and provided with board set up obliquely and provided with pins to guide the fickel lying against its face and almost upright. Two holes at the bottom of the plane, the first and the sixth, treceive the share of the machine proprietor and his lesses. Thus, if the boards were fairly pinned, the house and the proprietor would get one-third of all the money. But the oblique plane over which the nickel rolls is so ingeniously pinned that fally one-half the nickels are given no chance to roll anywhere but to the corner holes. of the remainder of the money, that which runs to second and fourth holes goes to the player, but here the chances are again juggled by a set of pins forming practically a fence, from which the coins usually ricochet into the corner slots. So the player may drop scores of nickels before one will go into either the second or fourth holes. The two remaining holes belong to the heuse and to the player equally, but their value may be inferred from the testimony of a barkeeper who attended a machine that 60 of 100 nickels go to the corner holes, 39 to the "hank" holes and i only to the winning holes, second and fourth.

Points in Yesterday's Sparring.

In the First Place the Republican Leader Was Fut to Confusion.

WASHINGTON, D. C., April 28.—The Demo-cratic leaders are highly gratified at the re-sult of yesterday's sparring in the Senate over the Wilson bill. They consider that they have gained two points. In the first place they put Aldrich, the Republican lead-er, to confusion; and in the second place they gave the strongest possible proof that they are practically united now in a determination to secure the passage of a tariff bill at the earliest possible day. Had the vote been taken at 80 clock yesterday, as hir. Aldrich first proposed, on the Wilson bull as reported by the Finance Committee, the bill would have passed. But this action would not have invalidated such amendments as have been agreed to since by the majority of the Finance Committee and which only await formal report to be incor-porated into the bill. Those amendments uld have been presented to the Conference Committee and have been accepted there. The fact, therefore, that those Democratic

would have been presented to the Conference
Committee and have been accepted there.
The fact, therefore, that those Democratic
Senators who are interested in those amendments should have been willing to intrust
them to the Conference Committee before
having them adopted by the Senate shows a
state of feeling so improved on that side or
the chamber that only unity of action may
now be expected.

Mr. Aldrich greatly exaggerated the situnition when he said that 300 new amendments
had been agreed to, and that the changes
altogether would practically make a new
bill. Mr. Voorhees promptly challenged
this statement, and every Senator in position
to know declares it to be unfounded.
Changes have been made, but they are
neither numerous nor of vital importance.

SUGAR TRUST LOBBY AGAIN ACTIVE.

The Sugar Trust has opened headquarters here again, and now rumors about the sugar schedule make their appearance daily. The latest rumor is that in addition to the time ago. The city has no depository in eighth or a quarter of a cent specific on reduty to be fixed, a duty of one-tenth of 1 cent be levied on refined sugars coming from countries that pay an export bounty on refined sugar. This would affect the German sugar and give the trust a great advantage. W. L. CROUNSE.

Representative Montgomery conversed yesterday with the tariff Senators, but could not learn that any formal compromise had been reached.

A leading member of the Ways and Means Committee said that the lack of information among the House leaders showed that the Senators were shaping their bill to the needs of the Senate, without reference to the standing it might have in the House.

From this it is concluded that the Senators will pass their bill in their own way and then depend on a conference committee to protect the changes they have made from further alteration by the House. Arkansas, Montgomery, Bynum, Bryan and

BLUEFIELDS SITUATION.

WASHINGTON, D. C., April 28 .- The President and the Cabinet spent an hour yester-day in considering the Bluefields question, which has assumed the proportions of an important international controversy. The basis of the discussion was the detailed re-

Important international controversy. The basis of the discussion was the detailed report of Capt. Watson of the San Francisco (which arrived here yesterday), and which was laid before the Cabinet by Secretary Gresham, in the absence of Secretary Herbert, who was is New York.

Capt. Watson's report, which has been correctly foreshadowed by the Post-Drazon dispatches from Bluefields and Washington, is simply a finding of fact, without suggestion or recommendation, except as to the necessity of keeping a war vasse in the neighborhood of the Mosquito reservation and the eastern terminus of the Nicaraguan Canal for some time to come. The American commander states in his report that at present there is danger of a conflict between the Nicaraguans and the Mosquito Indians and between members of the American colony and the Nicaraguan authorities, who are now asserting a municipal jurisdiction over Bluefields which they have never before attempted to maintain. Capt. Watson is of the opinion that the Nicaraguans are counting upon the United States to support them in the contention that the entire Mosquito reservation is under the sovereignty of Nicaragua, and that this Government will resist any attempt to re-establish the full autonomy of the Mosquito Indians, maintained for a time at least under a treaty between Nicaragua and Great Britain might at

but has not yet arrived at a solution of the difficulty.

About a year ago the city advertised for bids for a city depository and the contract was awarded the Saxton National Bank, its bid being 5 per cent on daily balances. A bond for \$800,000 was executed by the bank and accepted by the city. When the bank went out of existence it left the city without a depository. The contract cannot be let again without advertising for bids, and the law plainly says that the contract can be let in that way but once in two years. The bank in which the funds have been deposited is out of existence and the city has no place in which to put the money.

The National Bank of Buchanan County was organized by the consolidation of two banks, one of them being the Saxton National. The new bank has offered to carry out the contract with the city for the unexpired term and has filled out a new bond to be approved by the Council, but the Aldermen will not accept it, as it will be necessary to release the old bondsmen. The money will be held by the treasurer as it accumulates until the difficulty is settled.

THE "wise, pure and patriotic administration" referred to in the platform adopted at Indianapolis on Wednesday aquandered a large surplus and left the country an empty Treasury. Nothing is easier than to put wisdom, purity and patriotism in a political platform.

YESTERDAY'S bluff of Senator Aldrich was the cause of one gratifying incident. It brought out from Senator McPherson the statement that he would vote Wilson bill as it came com the House if it were put upon its pasage. This seems to have been good reaon for Aldrich's scare.

IP Mr. Harrison can show that in high tariff periods employment is so plentiful that nearly every office holder in th United States is not trying to hitch all his kinsmen to the public crib he will make a great hit. Even Mr. Harrison himself has been accused of providing for his relatives at Uncle Samuel's expense.

MR. HARRISON, too, says that the Re ablicans are in danger of over-confidence If the protected manufacturers feel that they can win without campaign contribuns there is certainly great danger. The expenses of a presidential campaign are enormous, and Mr. Harrison's warning is likely to be repeated by Mr. Reed, Mr. McKinley and Chauncey Depew.

WHEN Mr. Harrison was nearly worried o death by the importunities of unem ployed office-seekers he may have said me things or thought some thoughts that were slightly unchristian, but he now says that a President has no right to complain that his time is "somewhat occupied" in attending to people who want places. Plainly the ex-President would be only too glad to grasp his fellow citizens by the hand once more as President. Is it just for Thomas Reed to describe such a man as frigid or icy?

LET OFFICIAL VILLAINY PLOURISH. The Council gave notice last night that the only requirement of a public officer to enable him to keep his seat is perfunctory attention to the routine duties of his office. Outside of this he may be steeped in notorious vice, guilty of the most scandalous conduct in violation of decency and the city ordinances and even guilty although not convicted in court of infamous crimes. All of this does not follow from the failure of the Council to remove City Register Pocock. In this case the majority of the Council merely indorsed notoriously scandalous conduct, breach of the peace by a disgraceful brawl in a bawdy house and violation of law as warrantable in a public official. The rest follows from the inter-

pretation of the removal clause of the charter expounded by Councilmen Arnstein and Ferriss and acquiesced in by those who voted with them against the removal of Pocock. According to these remarksble expounders of charter law the indefinite phrase "for cause" can only be interpreted to mean conviction of an "infamous crime." It is not worth while discussing this

view of the removal clause, nor is it worth the trouble to inquire into the hidden links of imaginative deduction from which this chain of stupid absurdities was forged. We can only look with astonishment and dismay at the conclusion that it is impossible for a public official to besmirch

his character so much that he is unfit for public office. It is perhaps a just retribution on the people of St. Louis for their political sins that they have at last been brought to this vile standard of official character.

President Nagel vigorously pointed out that under the ordinary operation of the Criminal Courts of this city the Arnstein-Ferriss rule would enable an infamous criminal to hold office for a full term. But a worse condition may be predicated of the rule. Under the reign of Zachritz in the Circuit Attorney's office an official, and especially a Republican official, with half a pull, may be guilty of all the crimes in the calendar and yet never be disqualified

But if the Arnstein-Ferris construc bitant prices charged for window glass do why have one at all? Action by wholly superfluous. The Sheriff would

remove him to the Penitentlary. Let vice and villiany flourish in the seat of the municipal government. The Council has said it and the law allows it.

A CRIMINAL POLICY.

A dispatch from the Connellsville coke district of Pennsylvania closes with the curious announcement that the foreigners are leaving that region in large numbers having "become tired of the constant struggle against starvation."

There is something grotesque in the des perate condition of the community for which legislation has done its utmost. The Carnegies and Fricks have clamored for "protection for American labor" and have got it, held it in trust, as it were, fo the benefit of their fellow-countrymen. They have never asked for the imposition of a duty without alleging as the sole and only motive the prosperity of their work

people. While prating of the dignity of American labor and the frightful consequences of competition with foreign paupers they have little by little crowded out the Americans and substituted the very foreign paupers against whom they asked protec-

But Messrs. Carnegie and Frick are, Americans for revenue only. The armor plate scandal shows that clearly enough. They do not know any difference between America and Hungary. They are broad cosmopolitans. The only distinction they make between their servants is between high-priced and low-priced men.

A few years ago Americans wanted the wages which the protective tariff "enabled" Carnegie and Frick to pay. But those worthies were not fools enough to take the enabling act as in any sense mandatory. "A SIGHT MOST ODIOUS."

In his speech to the Americus Club ex Speaker Reed uttered an impressive truth

when he said: It is not the disorganized crowds which seem to be aiming, but in an aimless way, towards the capital of the nation; it is not the mills running the half or the quarter time, and no time at all, nor capital piled up inused at the centers of trade, nor even labor unemployed for nearly a year past which completes the saddest portion of the picture. To me the sight most odious of all is the utter inability of the people to teach their own instruments and to compel the fulliment of their own will.

But the ex-Speaker uttered just as impressive a falsehood when he held up the inspired agitation of the instruments of organized greed as the expression of the will of the people which their representatives should obey.

There is only one way in which the American people can express their will with authoritative force. That is through the ballot-box. The only popular mandate in existence was given nearly two years ago. It commanded the thorough reform of the tariff and the smashing of the robber trusts and the overthrow of the money power in politics.

It is indeed a "sight most odious" that this mandate should not have been obeyed and that the people should be unable to compel the fulfillment of their will, because of the false agitation, the the forced evidence of distress, paid protests and the corrupt influence of the forces of greed which the ex-Speaker and his party have fostered in the Government. Their prevention of the fulfillment of the people's will is the most odious part of the sight.

THE late lamented Saxe wrote of the oldime pedagogue:

The property owner (unless he has some knowledge of the way the improvements are usually brought about) is induced to sign a petition on the strength of statements made by the solicitor who makes the most plausible argument as to the cost of his particular kind of paving material and the advantages it possesses over that of his rival.

Would it not be well for the Board of Public improvements to notify property owners by postal card when the improvement of a street is contemplated? There are quite a number of streets that property owners don't want improved and if they were made aware of the movement by the board they could express their wishes. It is surely the duty of the Board of Public Improvements to look after and protect the interests of the property owners who are obliged to foot the bills when improvements are made.

The holder or owner of property should at least be advised when these questions are brought before the board and then if a street must be improved it will give him an opportunity to make arrangements to meet his obligations when his bill is presented.

To the Editor of the Post-Dispatch: Your editorial in the Post-DISPATCH of yesterday in reference to the pitiful story of inhuman treatment which a mother told in a letter to the Post-Dispatch, relating her exletter to the Post-Dispatch, relating har experience in attempting to see her dead boy at the City Hospital, is only another example of City Hospital, it only another example of City Hospital inners and methods. Last fall the writer of this article had a friend who sustained injuries from a fall from an elevator, and was taken to the City Hospital. On his arrival there, which was about noon, he did not receive any medical examination until evening, to ascertain if any bones had been broken, notwithstanding my friend had sustained internal injuries which kept him confined to his bed for over a week. If a patient who shows no outward injury must lie for six hours from internal injuries, tossing to and fro upon a bed of pain, while five or six college-bred physicians are within the walls of said institution, and cannot take time to see an injured patient until said patient has suffered six hours within said wells, then it is time the management should be looked into. There is no doubt that it is a great thing for corporations to relieve them of their responsibility in taking human lives in order to pay their dividends and official salaries. Law was made for the masses, not for a few. There never was a law made that was carried out unless it filled this requirement. It is only a question of time when public sentiment will modify this special invalue.

The United States in general and St. Louis in particular would have a larger delegation of prospective visitors to London if it were not that the departure for the other side must be made at an earlier day than is customary with or desirable to European tourists. Dr. G. H. Johnson, a member of Central Branch, this city, and Messrs. F. H. and F. W. Peters of the North Side German Branch have decided to attend the exercises in London. They will sail for Europe on May 19. The scale on which the Jubilee services will be conducted is indicated by the fact that London has appropriated \$5,000 from its funds for the entertainment of the visitors. The founder of the Y. M. "How many games will we win from the browns? At least two out of the three, and I ope all three of the present series."

Ed Swartwood, the old-time Brooklyn out-

Ed Swartwood, the old-time Broosyn our fielder, is now umpiring at Cincinnati, and he has lodged a severe complaint against the sew rule regarding the so-called trap ball. John T. Brush was one of the men who helped to frame it and Swartwood called on him for more light. "Suppose," said swartwood, "that a littly fly was knocked in the air while a man was on first base and hat the pitcher, third baseman and short top all ran for it. Suppose they all missed t and the ball dropped safe and rolled away. If course, under this new rule he batsman is out, for somebody but to have caught the fly. What nuzzles me is this: Taxe it for granted that he base runner has hunched a little away rom the bag and he sees a chance to break or second when the ball rolls away. Now, she compelled to go back and touch the bag, or can he run on without that formality?" 'I am not the author of that rule," responded Mr. Brush; 'was opposed to its passage, hink it is absurd, and I must respectfully lectine to try to interpret it." And Umpire wartwood is still guessing. To all intents

nink it is about and I must respectfully lectine to try to interpret it." And Umpire iwartwood is still guessing. To all intents the batsman who is pronounced "out" by the ruling of a thoughtless committee perished on a fly, although an error of judgment actually saved his life.

"You can't beat Boston this year," said "Kid" Nichols, the crack pitcher of that team recently. "Our team is stronger than it was last year. Why, it's almost even betting that we could give any team in the League a handlcap of three runs and beat them out. We have it in for Pittsburg this year. We won't do a thing to them when we meet. The dangerous clubs this year, in my opinion, are New York, Philadelphia and Cleveland, in the order named. New York has been strengthened more than any other club. If Clark has his speed he will be an acquisition. He has a good head. Murphy is as fasta ball player as there is in the country and Van. Haltren is a high class man. I'd rather have him than two men like stensel, who succeeded him in the Pittsburg team."

Duncan F. Curry, one of the oldest ball players in the sountry, died last week in New York. He was President of the Knickerboeker Ball Club in 1846, and one of the committee who framed the first rules ander which hase ball was played.

Inaugural Entries Coming in Fast-Ed Corrigan's Opinion of Clifford. Corrigan's Opinion of Clifford.

The Red Ribbon stable's speady sprinter, Roy Lochiel, has been entered in the Fair Grounds inaugural. This son of young Lochiel is very fast at six furiongs, and it takes a good race horse to defeat him, at that route, when he is real good. Bookmakers all over the country were scorched with Roy Lochiel last season. One big killing, it will be remembered, was made with him during the Monmouth Park midsummer meeting, which netted his backers something like \$40,000. The local entries to the Inagaral include the Charter stable's good pair, Ray S. and Linda, J. D. Patton's Ethel Gray, Dan Lamasney's Service, Frank Welr's Harlem and Flattery, Carl Bros.' Sanamore and the Highland Grove Stock Farm's Highland. The following outside nominations have been made to the Inaugural. Chris Smith's Yo Tambien and Maid Marian, Lethy & Son's Fedestrian, Nick Finzer's King Lee and I. Wolft's Lord Willow-brooke. General Managar Burke expects a big batch of entries from Nashville to-day.

"Nothing that Clifford may do will surprise me," said Ed Corrigan recently. "He's a wonderful race horse, sure enough. Fit and well he can give weight and a beating to anything that wears iron. The way he passes his field is enough to break the heart of the stoutest horse contending against him. What do I think of his chance in the Brooklyn handicap? What I have always thought—it is only a question of his staying well and going there. If Clifford is the Clifford he is to-day he will make all your Don Alonzos and Sir Walters look like selling platers. He outclasses them all. Still, down East they have a lot of inferior horses giving him weight. I don't know how they do it unless they have a system like the fellow playing faro bank. That's all they have got—the system; or, rather, that is all they will have if they keep playing it."

Bookmaker Orlando Jones' new Washing Bookmaker Orlando Jones' new Washington Jockey Club will inaugurate a short spring meeting at its track in Virginia just across the Potomac from the National Capitol Saturday, May 5. Purses of \$200 are to be hung up at the outset and if the meeting proves a success the horsemen will benefit accordingly. Nearly 400 horses from the Bennings and Lyy City tracks will participate in the meeting. Gwynne R. Tompkins, formerly of St. Louis, is the secretary of the new club. Mr. Tompkins has been prominent as a turf writer in New York for some yoars past.

Novel Wrestling Match. SAN FRANCISCO, Cal., April 28.—The City commissioners for Golden Gate Park have at last taken a hand in the athletic event which Col. Daniel Boone has so energetically advanced in his animal arena on the Midwinter Fair Grounds for to-night. Fully 1,500 tickets have been sold for the "wrestling match" between the lion Parnell and a big grizzly bear. Col. Boone has positively announced to the people that his little affair will positively come off to night, and the executive officers of the Fair have offered no serious opposition.

officers of the Fair have offered no serious opposition.

The Park Commissioners have now come to the front, however, and fiatly warned the Executive Committee of the Fair that the match must not take place. They declare that the match would be a cruel fight between dumb creatures. They threaten that if the battle takes place their concession of the use of the Golden Gate Park will be withdrawn and the Midwinter Fair brought to an untimely end.

SUBDIVISION.

Over Half the Lots Sold in Two Days.

Located on Delmar, Maple and Sutter Avenues, West End.

Only 12 minutes' ride on Wabash Railroad from the new million dollar Union Station, and in few hundred feet of two electric railways that run cars every TWO MINUTES to Fourth and Washington Avenue and Sixth and Locust Streets-fare 5 cents.

A Special Letter of Invitation to the Readers:

DEAR READER-I shall run two free trains from Union Depot over the Wabash Ry. to Maple Avenue on Sunday, for inspection, at 9:30 a. m. and 2:30 p. m., and Monday at 9:30 a. m. and 2:30 p. m., stopping at Ewing Avenue, Grand Avenue and Forsythe Junction for passengers, so you can inspect without cost the wonderful growth of the West End of St. Louis, where more fine dwellings and other buildings have been erected in the past three years than in any other part of St. Louis. This West End of St. Louis is a marvel; without special effort to push its merits, it is now a solid town of costly buildings from Union Avenue to the city limits. It is reached by two electric roads and also by the Wabash and Merchants' Bridge Belt Railway. The Subdivision is a few hundred feet away from the very high-priced restricted ground, improved with costly dwellings. I am selling beautiful, high and very charming lots in North Forest Park at nominal prices. These lots are situated on Delmar Avenue, the continuation of which runs into St. Louis County for thirty miles, making this one of the finest business streets in the city. These lots I sell on small monthly payments, without interest and without taxes for two years.

This is the place for you to buy property. It will more than double in value in next three years, as the city will overflow a mile beyond these lots in that period. Come and go with us. I will guarantee to show you the cheapest property and will sell it on the best terms ever offered to the public. Remember this property is only a few rods north of Forest Park. You can reach the center of St. Louis from it by three railways.

It is located and fronts on an improved street 30 miles in length, where as many teams and persons pass every day as on most of the streets down town. It is just 100 feet outside the city, where taxes are merely nominal, and where you get all the benefits of the inside owners, but pay nothing for the advantages. For plats or any further information call on

Phil Chew, 9 N. Eighth Street.

Exports of wheat from the principal ex-corting countries to Europe for thirty-seven sexts ended April 14 were 226,000,000 bu, gainst 219,680,000 bu last year. Mr. Ike Motter, capitalist and financier of

Mo., was on the floor. He expects a movement to come when farmers get their farm work, which will be

through their farm work, which will be shortly.

A great many farmers will grow small fields of flax this season as an experiment. The farmers of the State are greatly interseted, as the climate and soil are said to be specially suited to this crop.

A St. Louis milling firm some time ago offered patent flour to Glasgow at equivalent to 90s at laid down there. In a mail acknowledgment, of this offer their Scotch correspondent states that as No 3 red could be bought "landed" in Glasgow at equal to 69c per bu their own millergicould make patent flour they could afford to sell at 20s.

This morning's Financial Chrowicle makes the visible supply of cotton 8,847,240 bales, of which 3,225,140 are American; crop in sight during the week, 30,261 bales; plantation deliveries during week, 25,286 bales. The same paper, in its weather report, states that advices from the South are generally of a favorable character. Plafiting has made excellent progress almost everywhere, and in some sections has been completed. Anglish farmers' delivaries of home grown wheat this week were 45,000 qrs at 24s de last week, and 61,400 qrs at 26s lod last week it is

Ben Dedson and Hattle Timmons, both colored, have been keeping house at 916 North Eighth street on the Breekinridge-Follard plan. Ben runs on the river. He got home this morning about \$20 o'dlock from 'a trip. He was informed before he reached the house that Hattle had had other company while he was gone. He decided to risk a breach of promise suit and leave Hattle. He called at their room to get his things. Hattle did not look favorably on the plan and entered a vigorous protest. Ben was obdurate, and picking up his grip, started to leave. Hattle placed herself in his road, and whipping out her razor, slarhed Ben across the thighs, inflicting two gashes. The wound on the left thigh is 7 inches long and inch deep and the right thigh has a cut 4 inches long and illy linch deep. Ben was sent to the City Hospital and Hattle was arrested by Officers Kelly and Roach and locked up at the Third District Police Station at Seventh and Carr streets. A warrant charging assault to kill was sworn out against her.

ANTI-LIQUOR LEAGUE.

SEDALIA, Mo., April 28.—At the convention of the Anti-Liquor League of Missouri here yesterday H. P. Farris of Clinton, commander of the anti-saloon army, and several of his followers were present. They made a strong effort to have the word "army" substituted for "lengue." The majority of the committee reported in favor of the change. The minority report, changing the name to Anti-Liquor Lengue, was finally adopted as a sort of compromise.

G. I. Dodd's resolution favoring the formation of a national liquor commission was referred to the Committee on Legislation.

A resolution demanding a change in the mode of granting saloon licenses, was referred to the same committee.

R. F. Chew's rules of order were adopted.

The election of officers resulted as follows:

L. A. Field of St. Louis, President; R. F. Chew of Festus, Secretary; N. O. Nelson of St. Louis, Treasurer.

At the evening session the following report of the Committee on State Organization and Elatform was adopted:
